

# ENVIROSECURE STORMWATER CONSULTANTS, LLC

## CAPABILITY STATEMENT

ESCSONOMA.COM

Envirosecure Stormwater Consultants LLC is a certified small business offering stormwater compliance and environmental consulting services across California and neighboring regions. With over 30 years of experience in construction management and environmental regulation, we specialize in erosion control, SWPPP development, SMARTS reporting, MS4 compliance, and innovative AI-driven documentation tools tailored for municipalities and private contractors.

### CORE COMPETENCIES

#### SWPPP Development, Risk Assessment & Inspections

We deliver specialized support to help organizations navigate complex compliance requirements. Our team combines regulatory expertise with technological insight to offer strategic solutions that enhance operational efficiency and ensure long-term compliance.

#### Construction General Permit (CGP) Compliance

We offer comprehensive support to ensure full alignment with CGP requirements. Our experts streamline documentation, inspections, and reporting, helping clients maintain regulatory compliance while minimizing project delays and risk exposure.

#### MS4 Permit & Post-Construction LID Inspections

We conduct detailed inspections to support MS4 compliance and post-construction LID requirements. Our services help municipalities and developers meet regulatory obligations while promoting sustainable site design and effective stormwater management.

#### Caltrans WPCM Compliance & Field Support

We provide qualified Water Pollution Control Manager (WPCM) services tailored to Caltrans projects. Our field support ensures adherence to permit requirements, accurate documentation, and proactive compliance throughout the construction lifecycle.

#### SMARTS Reporting and Document Management

We manage all aspects of SMARTS reporting with precision and reliability. Our team ensures timely submittals, organized documentation, and full compliance with regulatory standards to streamline project oversight and reduce administrative burden.

### DIFFERENTIATORS

- | Over 30 years in construction and stormwater oversight
- | AI-Powered field inspection & documentation support tools
- | Regionally embedded and knowledgeable in California CGP
- | Fully insured and SAM.gov Registered Vendor
- | Internationally Accredited Certifications:
- | CPESC (QSD), CESSWI (QSP), CPMSM, Caltrans WPCM Certified Through ENVIROCERT INTERNATIONAL

### COMPANY SNAPSHOT

CAGE: 11T97 | UEI: ZTRLKBLKV9A4

Gov. Business POC: Daniel Walzer

Phone: 707-369-0101

E-Mail: [info@escsonoma.com](mailto:info@escsonoma.com)

Address: 4460 Chico Ave, Santa Rosa, CA 95407

Work Area: California, Nevada & Oregon

### PAST PERFORMANCE

We currently provide ongoing stormwater compliance support for capital improvement projects, municipal MS4 programs, and private development. Services include SWPPP inspections, LID evaluations, BMP consulting, runoff sampling, and SMARTS reporting. Our expertise ensures regulatory adherence, reduces project delays, and supports water quality goals for public agencies, developers, and infrastructure stakeholders across California, Nevada & Oregon
